# What people are saying

"I found Melanie's talk, "The Feminine Advantage," to be riveting. She is an engaging presence and her subject matter is deeply personal and relevant. Her talk helped give me new words and ways of thinking about women's tendency to, "do more than necessary" as she put it. Melanie spoke about the significant professional and personal advantages of "togglng between" masculine and feminine energies. I highly recommend hiring Melanie as a speaker."

Zuleikha Erbedinger-Bjork, Graphic Designer & Writer

***"Melanie is the kind of speaker that every woman wants to guide her. Her ability to express how we feel, dig deep, and get to the root of the problem is impressive, and her warm, caring demeanor make her talks mesmerizing. I highly recommend Melanie as a speaker or workshop facilitator!"***

"Melanie's speech was powerful not just to women coming up the ladder in our corporation, but also our senior managers. We found her to be very interesting and knowledgeable with work, life and balance. Many Department Managers found her inspiring and that she cared about women achieving their potential and what they could become. We all agreed she is a total package of women and leadership in one.

Melanie is a true inspiration to all women."

***"It was our pleasure to have Melanie Fitzpatrick speak at the BBW Chamber Women's Networking Luncheon in January. Her topic, "The Confidence Factor," resonates with most women as many of us think we need to reach perfection in all areas before we can move on! In addition to identifying the problem and explaining how it holds us back from achieving our dreams, she gave us exercises to be more mindful of what we do and say, words and phrases to use to empower ourselves, and activities to draw on for inner strength.***

***Through her warm and friendly manner, she not only gave information; she let us know she cares and is ready to inspire. We look forward to inviting her back."***
